International travel

Playing the flute

Baking

# KERRY JACKSON

## Web Developer

I love building practical, fun and modern applications with a focus on visual appeal and responsive design. I am known for my attention to detail and ability to quickly learn and utilize new concepts.

## SELECT PROJECTS

**Adopted** | GitHub: This is my most recent project, where I am in the process of revamping a local animal shelter's website using React and Node.js/Express and PostgreSQL. This project has solidified my understanding of the integration of front-end and back-end applications.

**Aloha Chat** | GitHub: Fully functional chat application built with React and Firebase. Users can sign in with Google Authenticator, create rooms and chat with each other in real-time.

**Bloccit** | GitHub: Reddit-like clone built with Node.js/Express and PostgreSQL. Users can create accounts, create topics/posts and comment and favorite other users' content.

## EDUCATION

**Bloc**

*Full-Stack Web Development Program*                    Jan 2019 - present

- 1000+ hours on front-end and back-end fundamentals, relational database concepts, and algorithms and data structures. Leveraged these principals by building several fully functional, full-stack applications.

**Lesley University**                                        Cambridge, MA

*B.S. Communications*                                                   2014

## EXPERIENCE

**Traveler Support**                                      Apr 2017 – May 2018

*EF Education First*                                          Cambridge, MA

- One-on-one communication with up to 50 clients per day while keeping wait times below 3 minutes
- Implemented a tracking system to catch errors in client travel documents
- Handled traveler emergencies requiring fast resolutions to unpredictable circumstances

**HR Generalist**                                         Mar 2016 – Mar 2017

*Wheelabrator Technologies Corporate*                        Portsmouth, NH

- Onboarded 50 employees per month nationwide
- Conducted exit interviews on a weekly basis to strengthen workplace culture and increase employee morale

**Operations Specialist**                                 Aug 2015 – Mar 2016

*Wheelabrator Technologies*                                    Saugus, MA

- Managed office of a busy power plant
- Promoted to HR Generalist in Corporate office within 6 months
